BAND STORY

"

The band took its final form in late september 2008 after some jam sessions that occurred in the summer. We closed ourselves in our practice room for several months until we were ready to play our material in front of an audience (which we did in late January 2009). With the good response we got at our first 2 shows, we decided we were ready to record something out of this. That's what we did and now the 5 songs demo is available at shows for only 5\$.
